SPECIAL DIET INSTRUCTIONS WHILE IN THE HOSPITAL

This icon: [♥] indicates the menu item is approved by the UCSF dietitians as a good choice for sodium & fat restricted diets. You can order your meals when you are ready to eat. Your daily diet order goals are to aim for 2,000-2,400 milligrams (mg) of sodium & 13 grams of saturated fat.

Patients on Insulin for Blood Sugar Control

To help us manage your blood sugar, your nurse needs to check your blood sugar levels before you eat your breakfast, lunch and dinner. Additional blood sugar checks will be done at 9pm & 2am to ensure your baseline blood sugar levels are well controlled. For best blood sugar management with room service dining, **please do these things:**

1. Eat 3 times per day & do not skip meals.
2. Order meals at consistent meal times and space meals at least 3-4 hours apart. Each mealtime insulin dose is active in your body for approximately 4 hours
3. **Most Important:** Wait for your nurse to check your blood sugar before eating your meal.

Our Health & Sustainability Commitment:

The UCSF Nutrition & Food Services Team is committed to providing our patients & customers safe, nutritious food that tastes good. We choose food products that are whole & as unprocessed as possible, grown preferably locally, produced & packaged in a manner that is less detrimental to the environment, free from genetic modification when possible, in consideration of animal welfare & in consideration of fair trade standards. Our products are free of trans fats & minimize use of products with high fructose corn syrup. While we are not 100% there, we continuously evaluate & change our products to meet this commitment.
